

# Climate Video & Discussion Night

Sunday, October 1, 2017, 6:30-8:30pm

*“We are the first generation to feel the effect of climate change  
and the last generation who can do something about it.”*

Barack Obama

This documentary, **HOME**, directed by world famous French photographer, Yann Arthus-Bertrand, shows aerial shots from over 50 countries.

It highlights the exquisite beauty of our Home, the Earth, and also clearly illustrates the extent to which our precious Earth has been enormously damaged by humanity's actions.

Join us for the 90-minute film followed by discussion.

*~ Free! Open to all! ~*
