

Climate Video & Discussion Night  
Sunday, March 11, 2018, 6:30-8:30pm

**FINAL WARNING: LIMITS TO GROWTH**

**Limits to Growth** is a report, commissioned by the Club of Rome, published in 1972. Using cutting edge computer analysis, a team of MIT researchers tracked industrialization, population, food, use of resources, and pollution. They developed a range of scenarios for our future, depending on what choices humanity made to address these issues.

**Final Warning Limits to Growth** sheds light on the story behind the original report and how these concerns have been addressed over the past four decades.

Join us for two intriguing documentaries (52 minutes total) followed by discussion.
