

CLIMATE DESTABILIZATION: OUR LONG EMERGENCY

Sunday, January 13, 2019, 6:30-8:30pm

PARIS TO PITTSBURGH

Bloomberg Philanthropies Documentary shown on National Geographic Channel

“With Washington asleep at the switch, local governments, states, businesses, and citizens from across the political spectrum are taking steps to tackle climate change and build a bright future for our country. This film tells their stories.

It drives home the message that fighting climate change makes our economy stronger, creates jobs, and saves lives by cleaning the air we breathe.

As the weather grows deadlier and more destructive,
Americans aren't waiting on Washington to act.”

Michael Bloomberg, UN Special Envoy for Climate Action
