

# CLIMATE DESTABILIZATION: OUR LONG EMERGENCY

Sunday, May 12, 2019, 6:30-8:30pm

## **CLIMATE: What are the Real Causes and Why the Climate May Tip**

Presentation by Norbert Lechner, Professor Emeritus

Carbon dioxide in the atmosphere is a symptom  
and not the cause of the climate crisis - what is the cause?

Also, immediate serious action on the climate crisis is more urgent than  
most people think, because the climate may tip,  
resulting in rapid and irreversible damage to the planet.

Norbert Lechner, Prof. Emeritus, Architect and LEED AP is an expert in energy responsive architectural design with an emphasis on solar responsive design including daylighting. His book, *Heating, Cooling, Lighting: Sustainable Design Methods for Architects*, 4<sup>th</sup> ed., © 2015 is used in architecture schools all over the world, and it is also popular with professionals. He has also written the book, *Plumbing, Electricity, Acoustics: Sustainable Design Methods for Architecture*, © 2012, as well as many papers, articles, and chapters in edited books.

***Join us! ~ Presentation followed by discussion. Free! Open to all! ~***

**Sunday, May 12, 2019, 6:30-8:30pm**

Oasis Café in Carr Mill Mall  
200 N. Greensboro St, first floor  
Carrboro, NC
