

CLIMATE DESTABILIZATION: OUR LONG EMERGENCY

Sunday, October 27, 2019, 6:30-8:00pm

HEADING FOR EXTINCTION AND WHAT TO DO ABOUT IT

With Carla Norwood, PhD, NC Extinction Rebellion Coordinator

"The science is clear: It is understood that we are facing an unprecedented global emergency. We are in a life or death situation of our own making. We must act now.

Extinction Rebellion is an international movement that uses non-violent civil disobedience in an attempt to halt mass extinction and minimize the risk of social collapse.

XR believes it is a citizen's duty to rebel, using peaceful civil disobedience, when faced with criminal inactivity by their Government."

Carla Norwood received her B.A. and Masters of Environmental Management from Duke University, along with a Certificate in Nonprofit Management. She earned a Ph.D. in Ecology from UNC Chapel Hill in 2009. She has been actively engaged in promoting local food systems and protecting the planet for decades.
