

CLIMATE DESTABILIZATION: OUR LONG EMERGENCY

Sunday, March 8, 6:30-8:30pm

The SUCCESS AND ABUNDANCE OF REGENERATIVE FARMING

One of the most urgent issues in our climate crisis is how to grow enough food for everyone.

Explore stories of four great successes in regenerative farming, including:
A 4-generation farm family in their transition from conventional to regenerative farming.
Local Ten Mother's Farm adding great abundance to the CSA market.
Our very own Jim Sander donating organic farm produce to local charity, TABLE.
Michael Rozyne bringing global fair-trade principles to farmers in the U.S.

Join us for 45 minutes of these uplifting and inspiring stories, followed by discussion.
